

Motivational Session by Successful Entrepreneur on Emerging Trends in Engineering & Innovation

Activity Report

Academic Year	2024-25
Program Driven by	Motivational Session by Successful Entrepreneur on Emerging Trends in Engineering & Innovation
Quarter	I
Program / Activity Name	Motivational Session by Successful Entrepreneur on Emerging Trends in Engineering & Innovation
Program Type	
Program Theme	Innovation and startups
Start Date	17/02/2025
End Date	17/02/2025
Duration of the Activity (in Mins)	180 approx 3 hrs
Number of Student Participant	61
Number of Faculty Participant	5
Number of external Participant	--
Expenditure Amount in Rs.	1000/-
Any Remark	--
Mode of Session Delivery	Offline
Objective	The objectives of Guest Lecture are that students will able to understand the role of Electrical Engineer in industries. Recent trends to fulfill challenges in industries.
Benefit in terms of Learning / Skills / Knowledge obtained	<ol style="list-style-type: none"> 1. Apply the knowledge electrical engineering for problem solving. 2. Design and conduct practical in realistic constrain in manufacturing, testing and maintenance field. 3. Design the automation system for fast and value added quality product for economical growth through technological development. 4. Understand work and man power management. 5. Do higher study in field of automation and able use updated software and tools.

Brief Report on Guest Industry Lecture
AY 2024-25 (Term-II)
“Emerging Courses in Electrical Engineering”

Date and Venue/ Location	17 th Feb 2025 Department of Electrical Engineering & Mechanical Engineering
Speaker	Ms. Gargi Jadhav Quality Control (Operation) Dhoot Transmission, Aurangabad
Topic	Emerging Courses in Electrical Engineering
Aim/Purpose	The purpose of Guest Lecture to provide career oriented course and bridge the gap curriculum. The aim of the program is to disseminate knowledge about Industrial requirements and its future scope.
Objectives	The objectives of Guest Lecture are that students will be able to understand the role of Electrical Engineer in industries. Recent trends to fulfill challenges in industries.
Participants	61
Participants Profile	The program is designed to help students to gain confidence and enhance their knowledge in new field of Industries. The lecture explores the present scenario of industry requirements, view of automation and operation application for sustainable development.
Outcome	<ol style="list-style-type: none"> 1. Apply the knowledge of electrical engineering for problem solving. 2. Design and conduct practical in realistic constraints in manufacturing, testing and maintenance field. 3. Design the automation system for fast and value added quality product for economical growth through technological development. 4. Understand work and manpower management. 5. Do higher study in field of automation and able to use updated software and tools.
