Brief Report on

E&TC Department ETESA Activity (2019-20)

Expert Lecture on "Recent Trends in Electronics and electronics and communication engineering" by Alumni Ms. Deepshika Chavan

Date and Venue / Location: 04 September 2018, 12:00 PM to 1:30 PM, E&TC Department Class Room No. 301 and 302.

Aim / Purpose: To make students aware of Recent Trends in E&TC like Internet of Things (IoT) and Artificial Intelligence (AI).

Objectives:

- 1. To make students understand latest trends in E&TC engineering.
- 2. To make students aware of various career opportunities for E&TC engineers in industries.

Participant's Profile: BE E&TC Students.

Description about the Program:

Electronics and Telecommunication Engineering Department "ETESA" organized an expert lecture on "Recent Trends in Electronics and electronics and communication engineering" by the eminent alumni Ms. Deepshika Chavan on 04 September 2018 for E&TC engineering in the presence of Dr. S. R. Suralkar, HOD E&TC, Mr. N. M. Kazi, Dr. P. H. Zope and other faculties. The Lecture was attended by 82 students and 06 faculties of the department.

Mr. Amol Wani ETESA faculty advisor welcomed and introduce the speaker with the students. Ms. Deepshika Chavan Alumni of SSBT COET E&TC department pass out batch 2011 and presently working in HP (Hewlett-Packard) Inc, Bangalore as a Senior Data Analyst having a rich experience in the field of artificial intelligence and data science. The lecture commenced with a brief introduction of modern technologies. She spoke about what is IOT and its history, giving a timeline for IOT. She gave the relevant statistics for IOT, describing its evolution and outlining its future and elaborated on the use and applications of IOT. She explained how IOT and artificial intelligence is the basis for home automation system, automated shopping, healthcare applications and sensor technologies.

Ms. Deepshika has given the insights and information of the latest technologies used in the industries and introduced the students to industry concepts like "Data Mining and Data Science" and proceeded to explain how data warehouses are used to share information among the various departments and branches of a company, from around the globe. She motivated the students by speaking about the Research Directions in these technologies and the opportunities that are available in this field.

There was an interactive Question and Answer session where the Speaker cleared the doubts of students, and the programme came to an end with the proposing of Vote of Thanks.

Feedback & Analysis: As per the feedback received from the participants it was very good learning experience, the lecture helped them in their understanding the concept of IoT, artificial intelligence and other latest trends in E&TC used in industries. Lecture provided an interactive atmosphere between the resource person and the participants

Outcomes:

- 1. Students come to know about the latest trends in E&TC used in industries.
- 2. Students understood the significance of IoT, Artificial intelligence and its use inindustries.

Recommendations: To organize such expert lectures regularly.

Brief Report on industrial lecture on Power System Protection

Date and Venue/	13th February 2019
Location	E-108, Department of Electrical Engineering
Aim/Purpose	The aim of the lecture is to overview the principles and schemes for
, ,	protecting power lines, transformers, buses, generators and introduces
	the fundamentals of wide-area monitoring and control
Objectives	The objective of the program is
	1. To understand the need of protection of electric equipment and
	their protection schemes.
	2. To understand operations & characteristics of various
	electromagnetic and static relays.
	3. To understand the operations of various types of circuit
	breakers and their ratings.
	4. To understand the unit protection and over voltage protection
	of different apparatus in power system.
Participants	The program helps the student to gain confidence and knowledge
Profile	related to power system protection, equipment's, protection schemes.
	Also helps the students to gain knowledge of existing and upcoming
	equipment's used for protection
Description about	This lecture was an attempt to presents the fundamentals of power
the program	system protection and its application
Outcome	The program helps the students in
	1. Identify the challenges and solutions to industrial power system
	protection problems
	2. Select the appropriate protection schemes for various
	applications.
	3. Analyse power system faults for balanced and unbalanced
	conditions.
	4. Identify, apply, and calculate settings for power lines,
	transformer, generator and bus bar protection schemes
D 1.1	5. Use instruments and equipment in the laboratory
Recommendations	Such program should be arranged every year

Brief Report on industrial lecture on Energy Audit and Conservation

Date and Venue/	12th February 2019						
Location	E-108, Department of Electrical Engineering						
Aim/Purpose	The aim of the lecture is study and understand how to reduce the usage						
	of energy and cutting costs and energy conservation also to reduce						
	demand, protect and replenish supplies, develop and use alternative						
	energy sources, and to clean up the damage from the prior energy						
	processes.						
Objectives	The objective of the energy audit and conservation is to save energy by						
	maintaining and improve human comfort and health and to serve the						
	efficient and effective use of energy and its conservation						
Participants	The program helps the student to gain confidence and knowledge						
Profile	related to different process of audits. Also helps the students to gain						
	knowledge of existing and upcoming industrial utility and energy						
	management theory						
Description about	This lecture was an attempt to cover material relevant to giving						
the program	participants necessary knowledge and skill set in energy Audit and						
	conservation techniques and take advantage of this in their future career.						
	This lecture also helps the students to clear conceptual understanding of						
	technical and commercial aspects of energy conservation and energy						
	auditing and enable the students to develop managerial skills to assess						
	feasibility of alternative approaches and drive strategies regarding						
	energy conservation and energy auditing.						
Outcome	The program helps the students in						
	1. Gain knowledge about reduction of usage of energy and cutting costs.						
	2. Understand the gap between generation and demand.						
	3. Understand energy scenario and policy						
	4. Understand the significance and procedure for energy						
	conservation and audit						
	5. Analyze, calculate and improve the energy efficiency and						
	performance of electrical and mechanical utilities						
	6. Gaining Conceptual knowledge of the technology, economics						
	and regulation related issues associated with energy						
	conservation and energy auditing						

Recommendations	Such program should be arranged every year

Mock interview event report: 2018-19

The majority of students prefer to go for job after their graduation. The selection for jobs do not depend solely upon technical knowhow, as reflected by the marksheets, it also depends upon the softskills of the student, as assessed by the interviews. Giving an interview is an art. It needs practice. In order to make the students better employable, department gives them training for interview techniques also. With this view, Mock interviews are organized in the department.

On March 9, 2019, a mock interview session has been organized in the department. Er Vilasrao Deshmukh, Deputy Engineer of PWD Murtizapur kindly served as a resource person for the event.

Mr Deshmukh gave guidance to students for interview techniques, about 104 students has attended this session

Report of Event

The department is committed for the holistic development of students and making them employable. Considering this the department invites experts of diversified disciplines to interact and enrich the students. In this chain, Ms Sheilja Patil, Director of Motion Institute of Technology, Jalgaon was invited to have a dialogue with students on March 14, 2019. She is a well know career counsellor. She guided the students and discussed about broad spectrum of opportunities available in the Civil Engineering Sector.

She inspired the students and motivated them successfully. She specifically discussed the significance of management courses for civil engineers. She in detail discussed the past present and future trends of engineering and highlighted the importance of being aware of changing trends and paradigms in the engineering practices.

To, The Principal, SSBT's COET, Bambhori, Jalgaon.

Subject: Permission for conducting Industrial (Expert) lecture on "Mechanical Engineering in Thermal Power Plant" in AC seminar hall.

Respected Sir,

I the undersigned request you to please grant permission for conducting Expert lecture on "Mechanical Engineering in Thermal Power Plant" by Expert Mr. Rajendra Kabra MSEB Jalgaon.In AC seminar hall on 15th March, 2019. Time: 3.15 PM for Final Year Mechanical Engineering & Electrical engg students. Expected Expenditure is Rs. 1500 for the same.

This is for your kind information and approval.

Thanking you,

Yours Sincerely

Head, Mech Engg. Dept. S.S.B.T.'s C.O.E.T,

Date and Venue / Location	: 14/03/2019, AC Seminar Hall
Name of Resources Person	Er. Rajendra Kabra ,
	(RT. ENGINEER MSEB JALGAON)
Title	Mechanical Engineering in Thermal Power Plant
Aim / Purpose	: To aware the students beyond academics along Practicle
-	concept.
Objectives	1) The connect theoretical knowledge with actual, which is
	required for professional career.
Participant's Profile	: Final Year (BE)
Description about the	: Mechanical engineering student association had organised
Program	Industrial Expert Lecture on Mechanical Engineering in
	Thermal Power Plant by Er. Rajendra Kabra,
	(RT. ENGINEER MSEB JALGAON)
Outcomes	: 1) The Idea of Job perspective was clear to them.
Recommendations	The students found this industrial Expert Lecture was very useful.
	The primary objective of this Lecture was to make the students
	aware about Practical Knowledge.

Brief Report on Competition: 'CADD Contest'

Date & Venue /	17th Sept, 2018
Location	Computer Lab, Dept. of Mech. Engg.
Aim / Purpose	To test what the participants know by answering questions on one or more topics.
Objectives	 To evaluate the knowledge of the participants To develop interest in subject areas To inspire and unleash the spirit of sportiveness To recognize outstanding students for excellence & professionalism in their field.
Participant's Profile	Second Year Mechanical Engineering
Description about the Program	CAD software is used to increase the productivity of the designer, improve the quality of design, improve communications through documentation, and to create a database for manufacturing. CAD is an important industrial art extensively used in many applications, including automotive, shipbuilding, aerospace industries, industrial and architectural design, prosthetics, and many more. CAD is also widely used to produce computer animation for special effects in movies, advertising and technical manuals, often called DCC digital content creation. The program was a competition, especially one in which entrants perform separately and were rated by judges. Every student was given a separate computer. AutoCAD software was used for drawing the objects. There were three rounds. First round was of MCQs. Second round was to draw 2D drawings. Last round was to prepare 3D model. All rounds were having stipulated time.
Feedback &	Annexure – A

Brief Report on Expert Lecture: Job Opportunities in HVAC

Date & Venue /	11 th Aug, 2018
Location	Seminar Hall, Dept. of Mech. Engg.
Location	To give platform to the students to interact with distinguished experts
Aim / Purpose	which further also strengthened the institute-industry interaction.
	1. To provide the latest information in the respective fields to the
	students.
Objectives	2. To explore particular subject with interaction with industry experts.
	3. To provide platform to students to express their ideas and view.
	4. To enhance the industry-institute interaction
Participant's Profile	Third Year Students of engineering
-	Mr. Vinod Patil, Proprietor, Vinod Engineering, Jalgaon & Nagpur
	delivered lecture on Job opportunities in Heating, Ventilation & Air
	Conditioning (HVAC) Sector. He started with a basics of HVAC and
	moved towards HVAC components, working principles, types and its
Description about	applications. The speaker fascinated the minds of audience with his
the Program	immense knowledge on different technologies.
	He deliberated his ideas about the boom of job opportunities in HVAC

Subject: Letter of Appreciation

Thank you very much for conducting workshop on the topic "Goal Setting & Professional Skills", I found the program an informative & thought provoking at Department of Business Administration on 31th August, 2018.

It was really a splendid program which exposed students to the field practices.

Your workshop was so inspiring and also enjoyable.

Looking forward for your cooperation for the professional enhancement of students in future as well.
